## ***ECEC – European Council of Engineers Chambers***

The ECEC is the European umbrella organisation for national Engineers Chambers. Members are national Chambers of Engineers or representative public bodies of the profession of Engineers, who are based on national law.

It represents the professional interests of academic Chartered Engineers on European level and promotes the highest technical and ethical standards within the Engineering profession in Europe.

### ***ECEC- Summary of Objectives***

ECEC represents professional interests of Chartered Engineers effectively on the level of the association in front of the bodies of the European Commission and the European Parliament.

ECEC encourages and monitors the process of passing common European legislation and takes positions on current relevant topics for the profession.

ECEC strengthens the active participation of national Engineers Chambers in the process of harmonisation national construction regulations according to the common European regulations, especially in the field of:

- Laws, Regulations, Directives and Standards,
- Education of Engineers and continuous professional development,
- Professional Recognition and working mobility of Chartered Engineers.

ECEC defines Professional Qualification Standards and Association Rules as well as to support the system of Freelance Engineering Professions.

ECEC creates Common Principles of Engineering Ethics as the basis of understanding and self-confidence among European Chartered Engineers.

ECEC strives for positive Atmosphere in actual and future Co-operation and Co-ordination in common and particular, activities with other European Engineers Organisations.

### ***ECEC – Structure***

The ECEC is composed of the following bodies:

- The General Assembly of members

ECEC Office

A-1010 Vienna, Karlsplatz 9/2, Tel +43 1 505 58 07 – 51; e-mail: [ecec@arching.at](mailto:ecec@arching.at)

- The Executive Board
- The President
- Three Vice-Presidents
- The Treasurer
- The Secretary General

### **ECEC – Executive Board Members**

<b>President:</b>	Mirko Oreskovic (Croatia)
<b>Vice Presidents:</b>	Karl Heinrich Schwinn (Germany) Alcide Gava (Italy) Jiri Plicka (Czech Republic)
<b>Treasurer:</b>	Crtomir Remec (Slovenia)
<b>Secretary General:</b>	Josef Robl (Austria)

### **ECEC - History**

- 1998: At the 1<sup>st</sup> European Engineering Forum in Dresden the necessity for a European Engineers Chamber was presented.
- 2000: The 2<sup>nd</sup> Forum in Budapest underlined the resoluteness to establish a European Engineers Chamber.
- 2002: The 3<sup>rd</sup> Forum held in Dubrovnik decided to establish the European Council of Engineers Chambers.
- 2003: At the 4<sup>th</sup> Forum in Vienna the ECEC was founded and the Presidents of the Chambers in Croatia, the Czech Republic, Germany, Italy, Hungary, Montenegro, Poland, Slovakia, Slovenia and Austria signed the founding-document.
- 2007 and 2008: Bulgaria and Greece joined the ECEC
